

# BOW DINING TABLES

**BOW designed by Michael H. Nielsen.** The BOW table is an exquisite and elegant oval dining table. It is characterized by a number of beautiful design details such as herring bone pattern when unfolding, and the high quality butterfly extensions makes it easy to expand the table from 10 to 14 persons.

*Designed by  
Michael H. Nielsen*

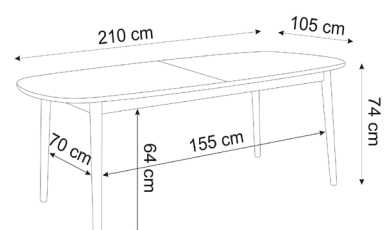

## BOW dining table No 723210

Extending oval dining table with wooden edge and solid wood legs. It features a synchronous extension system and hidden butterfly leaves with herringbone, to unfold easily in the center of the table.

Number of seats: 8-10 persons  
Extended: 12-14 persons

**Dimensions:**  
L:210/ 310 W: 105 H: 74 cm.

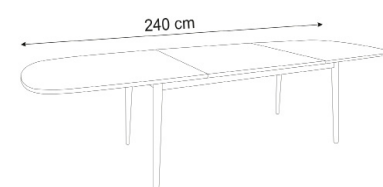

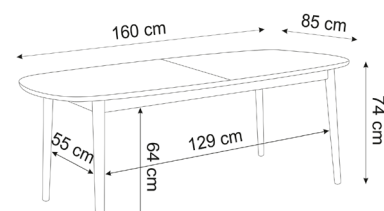

## BOW dining table No 723160

Extending oval dining table with wooden edge and solid wood legs. It features a synchronous extension system and hidden butterfly leaves with herringbone, to unfold easily in the center of the table.

Number of seats: 4-6 persons  
Extended: 8-10 persons

**Dimensions:**  
L:160/ 240 W: 85 H: 74 cm.

# BOW DINING TABLE

The elegant Bow dining table features herring bone design in the extension leaves when choosing light oak or walnut for the surface. It is also possible to select a number of other types of surfaces for the table, for example the smooth high quality fenix nano laminate, that is easy to clean and maintain. The table has a synchronous extension system and hidden butterfly leaves that makes it easy for one person to extend the table.

## QUALITY FURNITURE SINCE 1968

PBJ Designhouse was founded in 1968 by Per Buhl Jørgensen. Since 1996 the proud design and craftsmanship tradition has been carried on by Morten Svendsen, and the company has invested in large production facilities to follow the strong demand.

## DANISH DESIGN

PBJ Designhouse has a tradition of bringing together furniture architects and certified cabinet makers since the start.

This has turned the company into an exponent of Denmark's proud traditions in furniture – when creativity and quality unite, the result reaches new heights.

## FURNITURE WITH A CONSCIENCE

All wood used at PBJ Designhouse comes from state approved plantations, where the logs are individually selected and gently harvested.

We often produce furniture with veneer. The reason for this is twofold. It reduces the use of solid timber, thereby conserving natural resources. Secondly, the MDF that the veneer cover is made with recycled wood which is better for the environment whilst still producing a strong and high-quality surface.

All of our timber and veneer are carefully hand sorted so that the grain patterns and colour variations are as harmonious as possible.

# AERIS SERIES

The AERIS dining table - designed by Morten Svendsen has an elegant, classic look with a modern touch. The top plate is "flying" over the rounded legs, which has a nice detail near the top. The table comes in different sizes and shapes. You can choose a solid oak top on most of the tables, a veneer top or one of our beautiful laminate or linoleum colours. The Round shaped table comes in 3 different sizes - all of them takes extension in the middle. The rectangular table comes in two different designs. The first design comes in 2 sizes – these tables takes an extension in each end. The second rectangular design takes up to 4 extension leaves in the middle, this table (marked with \* to the left) does not come in solid oak, and if you buy extension leaves in veneer for this table, they come with herringbone feature.

# JOINT SERIES DINING TABLES

**JOINT series designed by Morten Svendsen.** JOINT is known for its unique details, like finger joints, and hidden butterfly extension in one end - that quick and easy gives you a 1 m. larger table. JOINT is available with tabletop in solid light oak and solid oiled oak, and in a lot of beautiful colours, that gives you the possibility to own a unique table, that fits exactly into your home.

*Designed by  
Morten Svendsen*

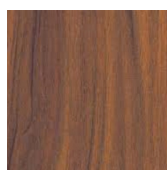

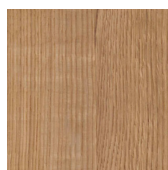

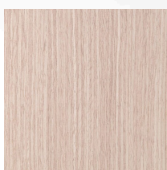

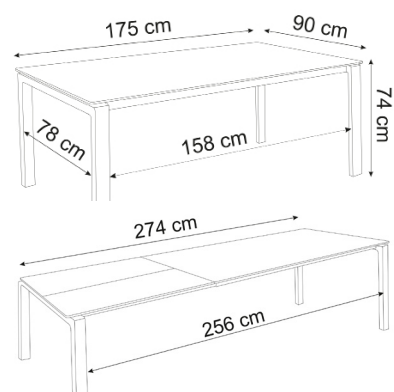

### JOINT dining table small

No 725175

Dining table with butterfly extension in one end. 6-8 seats  
- extended 10-12 seats

L 175/275 W 90 H 74 cm.

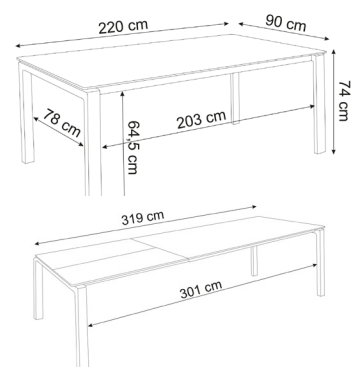

### JOINT dining table large

No 725220

Dining table with butterfly extension in one end. 8-10 seats  
- extended 12-14 seats

L 220/320 W 90 H 74 cm.

# JOINT SERIES

Joint is known for its unique details like finger joints, solid table top option and butterfly extension system. The table comes in 2 sizes, so it fits into both appartments and larger places. The hidden butterfly extension quickly gives you an additional 1 m. space at one end, easy for one person to expand.

## QUALITY FURNITURE SINCE 1968

PBJ Designhouse was founded in 1968 by Per Buhl Jørgensen. Since 1996 the proud design and craftsmanship tradition has been carried on by Morten Svendsen, and the company has invested in large production facilities to follow the strong demand.

## DANISH DESIGN

PBJ Designhouse has a tradition of bringing together furniture architects and certified cabinet makers since the start.

This has turned the company into an exponent of Denmark's proud traditions in furniture – when creativity and quality unite, the result reaches new heights.

## FURNITURE WITH A CONSCIENCE

All wood used at PBJ Designhouse comes from state approved plantations, where the logs are individually selected and gently harvested.

We often produce furniture with veneer. The reason for this is twofold. It reduces the use of solid timber, thereby conserving natural resources. Secondly, the MDF that the veneer cover is made with recycled wood which is better for the environment whilst still producing a strong and high-quality surface.

All of our timber and veneer are carefully hand sorted so that the grain patterns and colour variations are as harmonious as possible.

# SESAME SERIES DINING TABLES

**Sesame dining table, designed by Morten Svendsen.** "Open Sesame" - and the SESAME dining table transforms with ease from 175 cm to 275 cm or 220 cm to 320 cm, thanks to the practical butterfly funktion with the integrated extension plates that simply need to be unfolded. This expands the possibility for seating around the table with 4 seats. The table has a solid wooden frame and solid legs.

*Designed by  
Morten Svendsen*

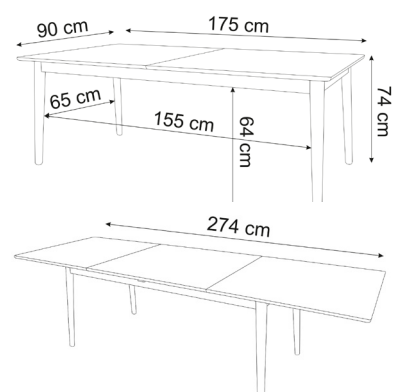

### SESAME dining table small

No 724175

Dining table with butterfly extension in the middle of the topplate 6-8 seats - extended 10-12 seats

L 175/274 W 90 H 74 cm.

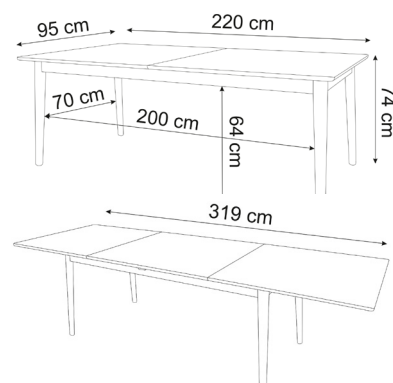

### SESAME dining table large

No 724220

Dining table with butterfly extension in the middle of the topplate 8-10 seats - extended 12-14 seats

L 220/319 W 95 H 74 cm.

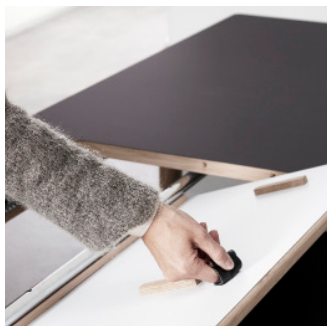

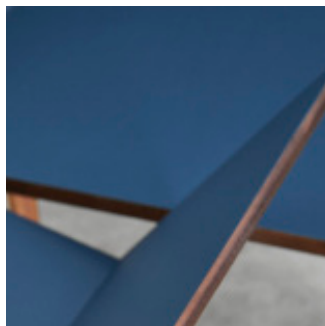

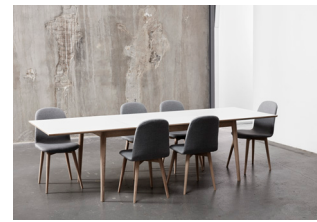

# SESAME SERIES

Extending Dining Table, with wooden edge and solid wood legs. It features a synchronous extension system and hidden butterfly leaves to unfold easily in the center of the table. With 2 sizes this table fits both the small apartment or larger living room. The top comes in a lot of colours - so you can design it to fit perfect into your living area,

## QUALITY FURNITURE SINCE 1968

PBJ Designhouse was founded in 1968 by Per Buhl Jørgensen. Since 1996 the proud design and craftsmanship tradition has been carried on by Morten Svendsen, and the company has invested in large production facilities to follow the strong demand.

## DANISH DESIGN

PBJ Designhouse has a tradition of bringing together furniture architects and certified cabinet makers since the start.

This has turned the company into an exponent of Denmark's proud traditions in furniture – when creativity and quality unite, the result reaches new heights.

## FURNITURE WITH A CONSCIENCE

All wood used at PBJ Designhouse comes from state approved plantations, where the logs are individually selected and gently harvested.

We often produce furniture with veneer. The reason for this is twofold. It reduces the use of solid timber, thereby conserving natural resources. Secondly, the MDF that the veneer cover is made with recycled wood which is better for the environment whilst still producing a strong and high-quality surface.

All of our timber and veneer are carefully hand sorted so that the grain patterns and colour variations are as harmonious as possible.

**JOINT series designed by Morten Svendsen.** JOINT is known for its unique details, like finger joints, on both cabinet and legs. The drawers and doors are with push function, the drawers are with metal runners and the doors have soft closing hinges. All sideboards and highboards come with adjustable feet. All cabinets are veneered on the back and can thereby be placed both up against a wall or free standing.

## QUALITY FURNITURE SINCE 1968

PBJ Designhouse was founded in 1968 by Per Buhl Jørgensen. Since 1996 the proud design and craftsmanship tradition has been carried on by Morten Svendsen, and the company has invested in large production facilities to follow the strong demand.

## DANISH DESIGN

PBJ Designhouse has a tradition of bringing together furniture architects and certified cabinet makers since the start.

This has turned the company into an exponent of Denmark's proud traditions in furniture – when creativity and quality unite, the result reaches new heights.

## FURNITURE WITH A CONSCIENCE

All wood used at PBJ Designhouse comes from state approved plantations, where the logs are individually selected and gently harvested.

We often produce furniture with veneer. The reason for this is twofold. It reduces the use of solid timber, thereby conserving natural resources. Secondly, the MDF that the veneer cover is made with recycled wood which is better for the environment whilst still producing a strong and high-quality surface.

All of our timber and veneer are carefully hand sorted so that the grain patterns and colour variations are as harmonious as possible.

# AGER SERIES SIDE- AND HIGHBOARDS

**AGER, designed by René Hougard.** The AGER sideboard and glass cabinets are designed by René Hougard – Arde design. The classical furniture in the AGER series is developed on the base of good craftsmanship and includes a number of very nice design details that reflects the high quality of the furniture.

*Designed by  
René Hougard*

## AGER sideboard

Sideboard with 2 or 3 doors & 2 drawers. Cabinet with elegant tray look - soft edge and solid wood legs with adjustable feet. Inside there are 2 or 3 shelves and 1 vertical divider. Soft self-closing doors and drawers. All fronts are developed from the same piece of veneer so the structure of the wood is similar.

2 doors & 2 drawers - NO 13615443043

L 154/D 45/H 72 cm.

3 doors & 2 drawers - NO 13620043043

L 205/D 45/H 72 cm.

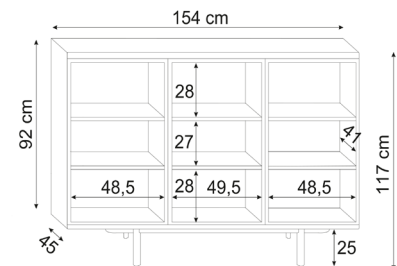

## AGER low glass cabinet

No 13615043043

Cabinet with 3 tempered glass doors. Cabinet with elegant tray look, soft edge and solid wood legs. Inside: 6 shelves and 2 vertical dividers. Soft self-closing doors and drawers and legs with adjustable feet. LED light functionality with dimmer behind the top shelf.

L 154/D 45/H 117 cm.

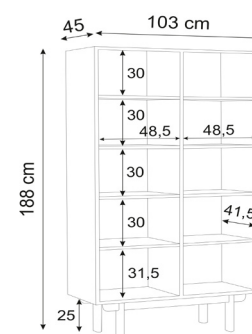

## AGER high glass cabinet

No 13610043043

Highboard with 2 tempered glass doors. Cabinet with softened and solid wood legs. Inside: 8 shelves and 1 vertical divider. Soft self closing doors and legs with adjustable feet. Includes LED light functionality with dimmer behind the 2 upper shelves.

L 103 /D 45/ H 188 cm.

# AGER SERIES

The sideboards and the small glass highboard of the Ager series have a beautiful tray detail on the top. All 4 cabinets come with solid wooden adjustable oak legs. The doors have self-closing hinges, drawers with full extension and self-closing mechanism. The series are available in light oak lac. or oak natural oil

# DESIGN YOUR OWN

Play with shelves, cabinets and wall rails to design your own Moore storage unit.

# OCULUS ACCESSORIES CABINETS

**Oculus, designed by Morten Svendsen.** Oculus accessories are small cabinets, designed to be a design feature in your home decoration. The cabinets have a very nice design with elegant miter joints, rounded fronts edges and 5 different sizes, so you can get exactly what you need for the empty place in your home. You can get both open cabinets and with nice doors with an elegant oval handle. The cabinets come in 4 different colours, light oak, oak natural oil, black oak and walnut. Doors will always come in the same colour as the cabinet.

*Designed by  
Morten Svendsen*

### Oculus Cabinet open

No 90444xx-00

Oculus Cabinet - open.

-  75 Walnut oil

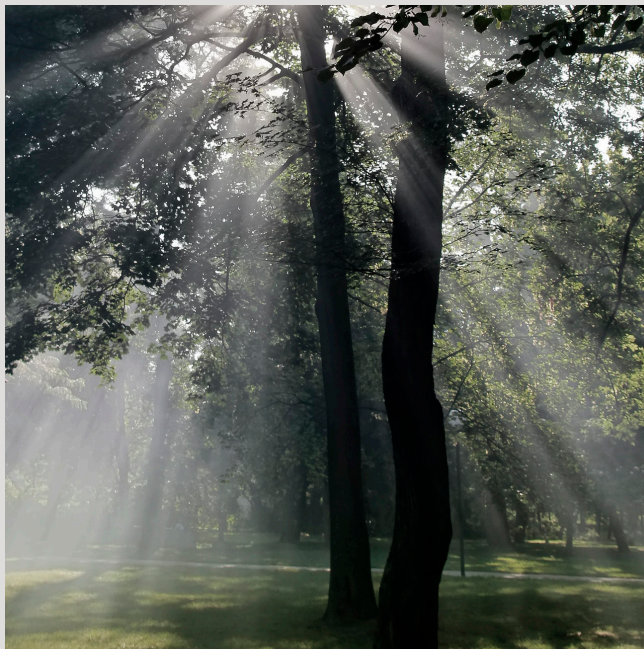

## QUALITY FURNITURE SINCE 1968

PBJ Designhouse was founded in 1968 by Per Buhl Jørgensen. Since 1996 the proud design and craftsmanship tradition has been carried on by Morten Svendsen, and the company has invested in large production facilities to follow the strong demand.

## DANISH DESIGN

PBJ Designhouse has a tradition of bringing together furniture architects and certified cabinet makers since the start.

This has turned the company into an exponent of Denmark's proud traditions in furniture – when creativity and quality unite, the result reaches new heights.

## FURNITURE WITH A CONSCIENCE

All wood used at PBJ Designhouse comes from state approved plantations, where the logs are individually selected and gently harvested.

We often produce furniture with veneer. The reason for this is twofold. It reduces the use of solid timber, thereby conserving natural resources. Secondly, the MDF that the veneer cover is made with recycled wood which is better for the environment whilst still producing a strong and high-quality surface.

All of our timber and veneer are carefully hand sorted so that the grain patterns and colour variations are as harmonious as possible.
